NOTE

INQUIRIES AND OBSERVATIONS CONTAINED IN THIS AGENDA REFLECT CONSIDERATION OF INTELLIGENCE ITEMS BEARING ON THE INDICATIONS AND WARNING PROBLEM. THEY WILL NOT INCLUDE ALL POSSIBLE SITUATIONS AND OFTEN MAY NOT DEAL WITH ASPECTS OF ONGOING SITUATIONS WHICH HAVE POTENTIAL SIGNIFICANCE AS INDICATIONS BUT ARE COVERED ROUTINELY IN AVAILABLE CONTRIBUTIONS. RECIPIENTS ARE INVITED TO COMMENT ON ANY DEVELOPMENTS WHICH THEY JUDGE TO BE OF VALUE AS INDICATIONS OF HOSTILE FOREIGN INTENTIONS.

II. USSR-Eastern Europe

- There have been several anomalies observed in Eastern Europe and we request your assessment/evaluation:

25X1

- Comment by [redacted] that "the situation is very gravethings are about to occur around Hungary."

25X1

- Reports that Soviet troops, in disguise, have built missile sites in Czechoslovakia along the Bavarian/Czech border.
- The Soviet Military Attache to Hungary has been absent and reportedly has returned to the USSR. There is some thought, however, that he may be visiting Soviet units or engaged in some other military matter.
- Sudden recall of Hungarian military attache and deputy chief of mission from Brussels and further reports that many more attaches will be called home.

25X1

- Request comments on any other activity in the USSR or Eastern Europe of indications or warning significance.

III. Southeast Asia

- We remain most interested in the status of North Vietnam's 312th and 316th divisions, and request any new information which will help clarify whether these divisions are preparing to or may now be moving subordinate elements to South Vietnam.

25X1

25X1

- In Cambodia, there are indications that Communist forces may soon begin mining operations on the Mekong and Tonle Sap Rivers, in spite of reported "technical" difficulties with the more sophisticated mines. An accelerated training program for emplacing and arming these mines is underway.

A coordinated operation to simultaneously mine the rivers and shell Pochentong could, if effective, seriously impair the government's resupply efforts. Request comments and any indicators of such an effort.
